LOCALLY GROWN PLANTS

And Their Advantage to You—

We have been growing plants in Springfield for the past 15 years and have found that locally grown plants do much better than imported ones. Our plants have been transplanted several times and are acclimated to our growing zone. Plants shipped in, too often have not been transplanted and do not have sufficient roots and have been allowed to dry out during delivery period.

For live, healthy, fresh-dug plants visit our Nursery today—make your selection from our fields.
